

## Personal Endorsement Letter

It was an honour to be part of the WHO DG candidacy. One of the privileges of the candidacy was to get to know the fellow candidates. Despite the competitive nature of the process we could develop mutual respect and had the opportunity to understand the motivation and the complementary professional approaches we all brought to the campaign.

Through the professional exchange of our joint public appearances, our meetings and debates at various global forums we developed a collegial friendship with Dr. Sania Nishtar. I became convinced that her outstanding commitment, her personality, her professional, public service and community experiences enable her to become a competent leader for better health and stronger WHO.
